Summary [edit]

| | | |
|--------------------|---|--|
| Description | <p>English: This is the first in a series of 15 slides which depicts the formation and growth of triangular waves riding on top of sine waves. These triangle waves grow in amplitude while their carrier sine wave remains constant. This demonstrates the growth of <i>overunity</i>. For its descriptive mechanism, please see the chapter (within a Wikiversity book), entitled: <i>Times have Changed</i>.</p> <p>Deutsch: Dies ist die erste einer Reihe von 15 Folien, die die Bildung und das Wachstum von Dreieckswellen darstellen, die auf Sinuswellen reiten. Diese Dreieckswellen nehmen in der Amplitude zu, während ihre Trägersinuswelle konstant bleibt. Dies zeigt das Wachstum der Overunity. Den beschreibenden Mechanismus finden Sie im Kapitel (in einem Wikiversity-Buch) mit dem Titel: <i>Die Zeiten haben sich Geändert</i>.</p> <p>Français : Il s'agit de la première d'une série de 15 diapositives qui illustrent la formation et la croissance d'ondes triangulaires chevauchant des ondes sinusoïdales. Ces ondes triangulaires croissent en amplitude tandis que leur onde sinusoïdale porteuse reste constante. Cela démontre la croissance de la surunité. Pour son mécanisme descriptif, veuillez consulter le chapitre (dans un livre Wikiversity), intitulé: <i>Les Temps ont Changé</i>.</p> <p>Русский: Это первый из 15 слайдов, на которых показано формирование и рост треугольных волн, надвигающихся на синусоидальные волны. Эти треугольные волны растут по амплитуде, в то время как их несущая синусоида остается постоянной. Это свидетельствует о росте сверхединства. Описание его механизма см. в главе (в книге Викиверситета) под названием <i>Времена изменились</i>.</p> | <p>Next slide in this series ... </p> <p>Nächste Folie in dieser Serie ... </p> <p>Prochaine diapositive de cette série ... </p> <p>Следующий слайд из этой серии ... </p> |
