9/11's Hidden Physics: Exotic Tech or Controlled Demolition?

LENR researcher Bob Greenyer reveals microspheres, plasmoids & material anomalies that challenge everything we thought we knew

9/11 REVISIONIST

APR 19, 2026

Was exotic technology used to **destroy all of the World Trade Centre** plus the little **St. Nicholas church** and the **Bankers Trust building**?

Does the **thermite / thermate theory** hold water?

Does the way the Twin Towers turned to dust, and **Building 7** drop into its footprint, demonstrate the immense power of secret technology?

Can the tech used against the WTC be used for good?

What would it take to get to the truth about "free energy."

To discuss all of this, please welcome [Bob Greenyer](#).

Since 2012, he has been researching Low Energy Nuclear Reactions (LENR) as a volunteer, working to demystify the field and support those in it.
