Beware of Domestic Psyops!

VINYASI

OCT 11, 2026

The short debunk: “aliens” is a coded word replacement, a new slang term, for “aristocracy of the Earthly variety”. “Extra-terrestrials” are “expatriate Nazis who lost their country but who won World War II” and who have remained in supreme command of the entire global political scene ever since operating behind the scenes and through anyone else whom we think is in control. For instance, the Pope, the US of A, the USSR, China, terrorists, anyone other than the aforementioned.

“Nordic Grays” are none other than “Aryans”.

All UFO technology was stolen from Nikola Tesla in 1895 and then covered up with arson of his lab. It was then given to the Germans along with funding from the bank associated with Prescott Bush, father of President George Bush, Sr.

WWII ended with an armistice in which the Nazis agreed to give up their country and also sacrifice any public acknowledgement of their victory over the Allied forces. In return, the Allies gave up their sovereignty to the Nazis who have remained hidden from public view ever since working through anyone who serves their purposes as a front for their secrecy.

Hence, the term of “aliens” originally referred to the US of A prior to WWII when we gave the Nazis money and technology to fight their war. But, then, the term of “aliens” shifted to the expatriate Nazis since they are foreign, hence: alien, and -thus- immune to public disclosure.

Thus, there is nothing of any interest which Mr. Salla could enlighten me on. And I have no interest whatsoever in tolerating my exposure to him having already read through enough of his website material to discern his position as a fraud or a victim of the same since it will be truth mixed up with falsehood, namely: failing to give credit where credit is due.

We have Nikola Tesla to give original credit plus the thieves who robbed him of his handiwork transferring this credit to illegitimate parties who were the recipients of this theft and continue to perpetrate these misappropriations of valor.

Liars don't deserve their valor. They steal it from someone else.

This is what offends me. This is why I call out Mr. Salla as a participant in spreading and supporting a lie.

It would be immoral of me not to duly warn him and anyone else within earshot.

So be it.
